Date 17th January 1944

To The Secretary to Government,

Law Department, Bangalore

GEN & REV SECRETARIAT 14494 20 JAN 1944 L S G BRANCH

Sir,

Restoration of the Septic Tank in Sunkal Farm at a cost of Rs 1026/-

I have the honour to state that the Special Officer, City Drainage Division reported to this office in his No 139 dated 3rd November 1943 that the Municipal Commissioner, Bangalore City who was addressed for placing funds at the disposal of the Department for executing the above work had replied that no separate provision for this work had been made in the budget of the Municipality and that therefore the cost may be debited to the funds allotted for the City Underground drainage works. The Special Officer stated that the work may be charged to the item of the construction of Main Ovoid sewer work in the Comprehensive scheme as the dismantling of the septic tank had been done previously for the construction of Main Ovoid Sewer Copies of his letter and enclosure are enclosed

On further enquiry the Special Officer reports in his No 184 dated 23rd December 1943 that the dismantling cost of the septic tank was charged to the estimate for Leading the sewage from the present terminal of the Ovoid sewer to the septic tank and on to the flood water drain and that since this estimate has been closed and completion report sent to the Comptroller, the cost of restoring the septic tank has to be charged to the estimate extending the Main Ovoid sewer from Sunkal Farm to Koramangala wherein there

there is a lumpsum provision of Rs 5384 for unforeseen works copy of his letter is enclosed

I request you t be so good as to obtain and convey approval of Government to debit the cost of Restoration of the Septic tank in Sunkal Farm to the provision for unforeseen works made in the estimate for extending the Main Ovoid Sewer from Sunkal Farm to Koraman ala

I have the honour to be,
Sir,
Your most obedient servant

G Carthamey

Director of Public Health

Letter No 184 dated 23rd December 1943 from the Special Officer, City Drainage Division, Bangalore to the Director of Public Health in Mysore, Bangalore

Restoration of the Septic Tank in Sunkal Farm

With reference to your letter No C 81-118 dated 10-11-1943 regarding the above, I have the honour to state that the brick masonry of the septic tank was dismantled by this Division while excavating a channel for leading the sewage from the present terminal of the Ovoid sewer to the septic tank and on to the flood water drain and the cost of dismantling the masonry was charged to the above estimate since this work is now completed and the estimate closed by sending the completion report to the Comptroller to the Government of Mysore, Bangalore, the cost of restoring the septic tank has to be charged to the estimate Extending the Main Ovoid Sewer from Sunkal Farm to Koramangala (Rs 3,60,000/-) as proposed in this office No 139 dated 3rd November 1943 This may be kindly approved

---

Letter No 139 dated 3rd November 1943 from the Special Officer, City Drainage Division, Bangalore to the Director of Public Health in Mysore, Bangalore

Subject Placing of funds for executing the work of restoring the septic tank in Sunkal Farm at a cost of Rs 1,026/-

I have the honour to state that the Municipal Commissioner, City Municipality, Bangalore, was addressed in this office No 155 dated 6th September 1943 requesting to place funds at the disposal of this Department for executing the work but in reply, he has stated that the cost of the work may be debited to the funds allotted for the City Underground drainage works and that no separate provision for this work has been made in this year's budget of the Municipality vide copy of his reply is herewith submitted

In my opinion, the incidence of the cost of the work may be charged to the item of the construction of Main Ovoid Sewer work in the Comprehensive Scheme, as the dismantling of the Septic tank has been done previously by this Division for the purpose of construction of Main Ovoid Sewer I therefore think the Municipal Commissioner's contention may be accepted and the cost of this work may be met from the estimate of Main Ovoid Sewer Work, as requested by the Municipal Commissioner If this is not approved, the Municipal Commissioner will again be reminded to arrange to place funds

As the work is urgent, early and kind orders are solicited

Letter No C2,Pr 242/43 dated 4th October 1943 from the Municipal Commissioner, City Municipality, Bangalore to the Special Officer, City Drainage Division, Bangalore

---

With reference to your letter No 155 dated 6th September 1943 requesting to place funds at the disposal of your Department for executing the work of excavating a bye-pass channel for restoring the septic tank in Sunkal Farm to its original condition at the sanctioned estimated cost of Rs 1,026/-, I have the honour to state that the cost of this work may kindly be debited to the funds allotted for the City Underground drainage work, as no separate provision has been made for such works in the budget of this office

As regards the portion of the work to be done by the Municipality,

5

Municipality, the Municipal Engineer has been again reminded to do to expedite the same and intimate the fact to you direct
